Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1, 4, 7, 8 and 18 are rejected under 35 U.S.C. 102(e) as being anticipated by Kimura et al (USPN 6,544,111). Kimura et al discloses a system for precisely controlling an amount of flatness of a lapping plate comprising a rotatable platform 12, a lapping plate 30 mounted to the rotatable platform 12 for rotation therewith, a holder 14 having a workpiece W located between the holder 14 and the lapping plate 30, an abrasive slurry Q located between the lapping plate 30 and the workpiece W, means for controlling a temperature of the lapping plate and thereby precisely manipulating an amount of flatness of the lapping plate 30, wherein the temperature of the lapping plate is adjusted during a charge process to selectively charge different areas of the lapping plate in a dictated order, wherein the lapping plate 30 can be configured in a flat shape, wherein the a middle, inner and outer diameter portions of the lapping plate are independently charged, wherein a temperature of the workpiece W and the abrasive slurry Q are controlled along with the temperature of the lapping plate 30, wherein the means for controlling temperature comprises a temperature regulating unit that

circulates fluid that travels between a thermal bath and a chuck 34 holding the lapping plate 30 (note Fig. 3-6, abstract, col. 4, line 57 to col. 6, line 24).

Allowable Subject Matter

3. Claims 20-24 are allowed.
4. Claims 2, 3, 5, 9-13 and 19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

5. Applicant's arguments with respect to claims 1 and 7 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

7. A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 3723

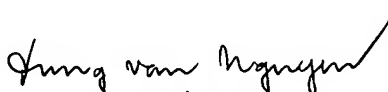

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dung V Nguyen whose telephone number is 571-272-4490. The examiner can normally be reached on M-F, 6:30-3:00.
